

JOB POSTING – POSTDOCTORAL FELLOW

Area of Research: Transportation Justice / Transportation Planning / Emerging Technologies

Overview of the Position:

You will be joining Dr. Steven Farber's research group as a main contributor on two funded projects. The first project, co-supervised by Dr. Amer Shalaby in the Department of Civil and Mineral Engineering, aims to develop new public transit performance indicators to steer transit policy towards socially inclusive outcomes while incorporating emerging transport technologies such as automated vehicles and shared mobility services. The second project will evaluate the relationships between transit provision and daily activity patterns among socially disadvantaged groups in an effort to incorporate justice into transport policy and infrastructure decision-making.

We are seeking a single candidate for a 2-year term. The postdoctoral fellow will have office space at the University of Toronto St. George (downtown) campus, will have opportunities to collaborate with transportation researchers across multiple departments, and may affiliate themselves with the [Spatial Analysis of Urban Systems \(SAUSy\) Lab](#), the [University of Toronto Transportation Research Institute](#), and the new [School of Cities](#). The University of Toronto is a globally ranked research university that offers [postdoctoral fellows](#) with the highest levels of opportunity for professional and scholarly training, network development, and the opportunity to engage with stakeholders throughout the Greater Toronto Area and beyond.

Description of Duties:

The successful candidate will conduct primary research in the abovementioned projects, will be lead-author on journal articles and conference presentations, and coordinate interactions between diverse project team members across university units as well as partners in the private and government sectors. The postdoctoral fellow will assist Drs. Farber and Shalaby in the development of this research program via the organization of a workshop, engage in partnership development, and participate in collaborative grant writing.

Required qualifications:

- PhD degree in planning, geography, engineering, or related field awarded within past 5 years;
- Extensive knowledge of transportation planning, transport equity, public transportation and emerging transportation technologies;
- Demonstrated experience in quantitative analysis, GIS and network analysis, and travel behaviour modelling;
- Excellent written and oral communication in English;
- Excellent personal time management, project management and organizational skills;
- Possess a passion for transportation planning, public transportation, and social equity.

Salary: \$53,400/ year + benefits and 15 days of vacation

Please note that should the minimum rates stipulated in the collective agreement fall below the rates stated in this posting, the minimum rates stated in the collective agreement shall prevail.

Application instructions

All individuals interested in this position must submit a cover letter and short research statement, a CV, and contact info for two references to Steven Farber (steven.farber@utoronto.ca) by the closing date. Please email materials in a single PDF with the subject line: **XSeed PDF Application.**

Closing date: Screening of applications will commence on **July 15th** and continue until the position is filled.

Supervisor: Profs. Steven Farber and Amer Shalaby

Expected start date: September, 2018 (with some flexibility)

Term: 2 years

FTE: 1 Full-time equivalent

The normal hours of work are 40 hours per week for a full-time postdoctoral fellow (pro-rated for those holding a partial appointment) recognizing that the needs of the employee's research and training and the needs of the supervisor's research program may require flexibility in the performance of the employee's duties and hours of work.

Employment as a Postdoctoral Fellow at the University of Toronto is covered by the terms of the CUPE 3902 Unit 5 Collective Agreement.

This job is posted in accordance with the CUPE 3902 Unit 5 Collective Agreement.

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from racialized persons / persons of colour, women, Indigenous / Aboriginal People of North America, persons with disabilities, LGBTQ persons, and others who may contribute to the further diversification of ideas.
